

Write on the Wildside Program

with **Harry Laing**, professional writer

Harry offers a wide range of options for your students to discover their 'inner writer'. Harry specialises in bringing out the creative and inspirational thoughts of students and guiding them in turning thoughts into words. Stories, poems, rap, free-form... Harry can provide the atmosphere and the context to allow talent to shine.

Harry is available to work with groups as part of the Birrigai camp experience – either as a night-time workshop or a facilitated series of sessions on site. This means you can stick to your existing booking with Birrigai and engage Harry for a night-time session; OR you can book a camp at Birrigai and have Harry be your 'Writer-in-Residence' to help your students develop and explore their writing talents.
